

Adhesive Drape

Suresafe Adhesive Drapes create an absorbent and impervious barrier to fluid strikethrough. They are designed to provide a protective covering to isolate a surgical incision or surgical site. These drapes come with an adhesive strip to secure the drape during the procedure.

Strong and Durable

Made from low linting and abrasion resistant material

Absorbent

Non-woven absorbent outer layer to maintain a dry working area

Impervious

Protects against fluid and contaminant strikethrough to aid in infection control

- Suitable for:**
- Operating theatres
 - Emergency departments
 - Procedure packs
