

## Flamigel® Hydroactive Colloid Gel

Flamigel® is the first hydrocolloid gel enriched with arginine; designed to treat minor wounds, superficial burns and skin damage. Flamigel® contains hydrocolloid properties to absorb excess fluid and maintain water balance, and hydrogel properties to moisturise and debride wounds. It works according to the innovative principle of moist wound care and supports rapid healing by covering the wound and creating an optimal moist healing environment.

### Promotes Wound Healing

Creates an optimal moist environment that allows wounds to heal up to 40% faster and reduces the risk of scarring

### Protective Skin Barrier

Creates a barrier to protect against external contaminants

### Refreshing Effect

Cools and soothes pain

- Suitable for:**
- Minor wounds (e.g. cuts, grazes)
  - Superficial burns (including radiotherapy)
  - Post laser therapy and cryotherapy
